TIPS TO REDUCE HARD WASTE:

AVOID

Avoid or Reduce:

Purchasing low quality, non-durable items as these may break and need to be disposed of more readily.

REDUCE

Choose to Re-Use:

RE-USE

Old Furniture: Refurbish and repurpose into new masterpieces for yourself, to sell or donate them to charity.

Whitegoods and homewares: Second hand items can be purchased for a fraction of the cost of a brand new item.

Sell, Swap, Share or Donate: Durable, good quality items can be used again by others. There are several websites promoting the re-use of items through resale, swapping, sharing and donating.

Search for: 'Buy, swap and sell' on Facebook.

Donate to Charity: eg. Salvage and Save, Salvos, Lions Clubs, Rotary Groups, Vinnies or RSPCA.

GARAGE SALE
→

Garage Sale: Garage sales are a great way to sell and buy second hand goods.

Repair and Restore: If it's broken, why not fix it? There are great 'how to' videos and manuals online. If you haven't got time to do it yourself, take it to a repair shop, repair cafe or get a handyman to help. This will also save you the cost of buying a new item to replace it.

RECYCLE

Recycle: Take your unwanted items to a recycling centre. E.g. Electronic waste items.
