

# Assets Team

5<sup>th</sup> March 2024

# Where do we sit?

## ENGINEERING & HORTICULTURE

# What do we do?

**Sustainably** manage Transport, Open Space and Stormwater networks

- Coordinate capital works between individuals, teams and disciplines
- Enhance community experience through built and natural environments

# What do we do?

Annual Cycle → **Continual Improvement**

## Asset Planning

- Asset renewals
- Condition assessments
- Strategic modelling
- Scope development

## Data Management

- Disposals
- Acquisitions
- Capitalisation
- Revaluations
- Mapping

**New Opportunities** ← Analysis

# Harry – Asset Engineer

- The engine room – manages all data within the asset register
- EOFY processes – disposals, acquisitions, capitalisation, revaluations
- Superhuman attention to detail + tech guru

# Andreia – Coordinator Infrastructure Assets

- New infrastructure planning – coordinating people and teams
- Stormwater - investigations, customer responses, new initiatives

- Bringing people together + green thumb

# Lionel – GIS Specialist

- Builds maps...and so much more!
- Manages all asset spatial data – over 100,000 unique data points
- Team morale + gourmet cooking

# Will – Capital Works Engineer

- Renewal planning – 10 year horizon
- Condition assessments – scope definition and consultant coordination
- Microsoft Excel wizardry + history buff

# Thank you
