

GRAFFITI KIT 2

BARE BRICK, STONE & MASONRY SURFACES

BEFORE COMMENCING PLEASE READ THIS IMPORTANT SECTION

*This kit contains a liquid Graffiti Removal product designed to strip paint, dissolve the wax, grease and oils contained within graffiti markers. Whilst it is a safe product to use whilst observing common safety precautions, we ask that if you do not feel confident in using these types of products then **DO NOT PROCEED**. Please return the kit to your local distributor.*

THIS PRODUCT IS DESIGNED AS A SINGLE PURPOSE ONLY PRODUCT I.E FOR THE REMOVAL OF GRAFFITI FROM BRICKWORK, STONEMASONRY AND MASONRY SURFACES.
DO NOT USE ON PAINTED, GALVANISED OR ALUMINIUM SURFACES.

INSTRUCTIONS

1. Remove all contents from the bucket and put on gloves and glasses.
2. Pour a little of the Bare Brick, Stone & Masonry Graffiti Remover into your bucket and generously apply the remover to the graffiti with the small paint brush supplied. You literally flood the product on the wall.
3. Repeat this procedure three times in succession at three minute intervals for most graffiti. There is no need to scrub hard with the paintbrush, but agitation is certainly helpful. Extra applications may be necessary on porous surfaces or graffiti that has shown to be resistant in the past.
4. Keep the graffiti wet with the product, as if the surface dries out the remover is not able to work effectively.
5. The dissolved graffiti can be removed using a stiff nylon scrubbing brush in conjunction with a copious supply of running water. Never use wire brushes.
6. If available, use a small pressure cleaning machine to rinse away the dissolved graffiti. Do not blast too close in order to remove the graffiti as it may cause damage and will possibly only remove a small percentage more. It is better to repeat the procedure again from the start.

*IF THESE INSTRUCTIONS ARE FOLLOWED THOROUGHLY, THEN PERFECT RESULTS WILL OCCUR.
HOWEVER DO NOT SKIMP ON THE USE OF THE PRODUCT.*

Always read the safety instructions before using any cleaning product and observe all safe working requirements eg. gloves, safety glasses etc. Be conscious of detergents entering our waterways.
Divert run off water to gardens or dispose of in accordance with local regulations.
